CIVIC | SHOWER SCREENS & WARDROBES

Existing Product Removal Waiver

Existing Product Removal – Waiver and Acknowledgment of Risk

Civic Shower Screens and Wardrobes has been instructed to remove an existing product and replace it with a new Civic product. While Civic will exercise the utmost care during the removal process, it is important to acknowledge the potential risks associated with removing previously installed fixtures or fittings.

Acknowledgment of Risks

Due to the unknown condition, age, and method of installation of the existing product — whether originally supplied by Civic or another party — and the uncertain structural integrity of the surfaces to which it is attached, the following risks may arise:

- Damage to walls, floors, tiles, fittings, or surrounding areas may occur during removal.
- The existing product may be structurally compromised or deteriorated, making safe removal difficult or impossible without causing damage.
- Prior installation methods or hidden defects may result in unexpected complications during removal.

Acknowledgment and Acceptance

By signing this form, I acknowledge and accept the following:

- I understand and accept that damage may occur during the removal of the existing product, and such damage is beyond Civic's control.
- Civic will not be held responsible for any damage arising from the removal process, including but not limited to damage to walls, tiles, fixtures, or surrounding areas.
- I indemnify Civic for any costs associated with repairing damages caused by or resulting from the removal of the existing product.
- I understand that I may be required to engage another party to carry out any necessary repairs.
- Civic may be unable to complete the installation of the new product until repairs are completed, and any associated costs or delays remain the responsibility of the client.

Warranty Disclaimer

Civic Shower Screens and Wardrobes does not provide any warranty for damage resulting from the removal of existing products. This waiver does not affect the warranty of the new Civic product, provided it is installed under standard conditions and without obstruction due to unresolved damage.
